

MACHINE SERVICE BULLETIN NO. 130

SUBJECT: 37-671 Crank Handle for  
MA Model

DATE: April 8, 1932

TO ALL OFFICES:

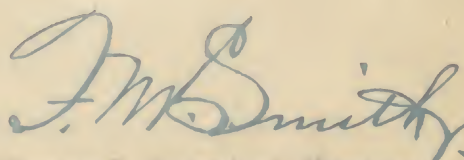

On most installations of machines crank handles are not supplied for hand operation. This results in an over-supply of these assemblies accumulating in District Offices.

Each office should carry a sufficient number for its needs and the excess should be returned to Orange.

As these parts were supplied to all offices without charge, they being a part of the original shipment of each machine, no credit can be given for the amount returned.

We would greatly appreciate the cooperation of each District Manager inventorying this surplus and instructing his Service Department to forward to us promptly, any of these assemblies which are in excess of his needs.

We would also suggest that you place this matter in your follow up file and take a similar inventory every three months.

General Service Manager

FMS:LJ

Mr. B. P. James,  
Toledo, Ohio.

April 6, 1934

DEAR MR. JAMES:

I have been thinking of writing you for some time but have been so busy that I could not find time to do so. I am sorry that I have not been able to write you more often.

I am well and hope you are the same. I have been very busy with my work but I am glad to hear from you.

I have been thinking of writing you for some time but have been so busy that I could not find time to do so. I am sorry that I have not been able to write you more often.

I have been thinking of writing you for some time but have been so busy that I could not find time to do so. I am sorry that I have not been able to write you more often.

I have been thinking of writing you for some time but have been so busy that I could not find time to do so. I am sorry that I have not been able to write you more often.

Yours truly,  
B. P. James
